### WEATHERWOOD EXTERIOR WATERPROOFER

WW Exterior Waterproofing topcoat is an architectural quality specially formulated for their compatibility with Weatherwood reactive wood stains. Exterior Waterproofer is easy to apply and dries completely invisible! E.W. can even hold authentic barnwood patina.

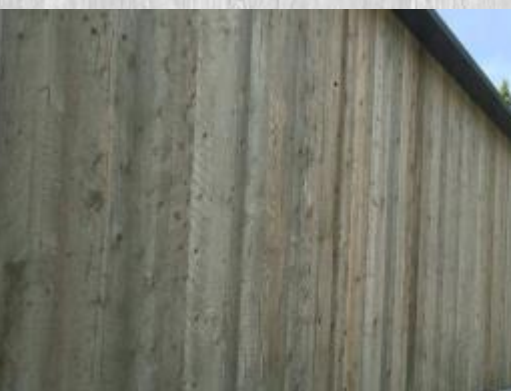

Annual reapplication is recommended.  
SDS available online. 1 Gallon = 400 sq. ft.

#### WW Varnishes are:

- ▲ Non-Yellowing
- ▲ Water-Based
- ▲ Architectural Quality
- ▲ VOC Free
- ▲ Exterior
- ▲ Commercial & Residential

#### USE:

EXTERIOR: For siding, decks, fences, beams, soffit, and doors, etc.

### DIRECTIONS:

**PREP:** Apply as a topcoat to raw, barnwood, or Weatherwood Stains reactive wood stain. Allow stains are dry, sanding with 80-120 optional. Cannot penetrate traditional wood stains or hard shell topcoats.

**APPLICATION:** Use brush or sprayer to apply. Apply one heavy coat of sealer, drenching the wood. Allow to air dry. Do not wipe back off.

**DRYING:** Dries in 2-4 hours. Proper air flow and warm conditions aid dry time. Allow longer for damp/humid climates.

**CARE:** Apply annually for best wood protection.
